

Autobag®

BRAND AUTOMATED SYSTEMS

850S Paper High-speed Bagging and Printing System

The AUTOBAG® brand 850S Paper High-speed Bagging and Printing System is designed to combine enhanced productivity with curbside recyclable materials for mail order fulfillment applications.

BENEFITS

Operational Efficiency

- Simple bag threading for fast and easy changeover
- On-board imprinter for printing shipping label information directly on the bag, increasing uptime while reducing consumable costs
- Intuitive interface for easy troubleshooting, diagnostics, production data retrieval to simplify maintenance and optimize productivity
- Inherently safe design improves ergonomics and maximizes throughput

Package Optimization

- One Step printing prevents order queuing and increases order fulfillment accuracy

Brand Experience

- Mailers are curbside recyclable for easy disposal

CHALLENGE

Increasing productivity and throughput is essential to improving your operational efficiency. There's simply no time for delays or equipment that's hard to use or unreliable. Now more than ever having innovative solutions that optimize your labor resources and can adapt to meet your ever changing business needs is critical to your success.

SOLUTION

The AUTOBAG® brand 850S Paper high-speed bagging and printing system is uniquely designed to provide a sustainable solution for enhanced packaging productivity for mail order fulfillment and e-commerce applications. One Step printing prevents order queuing and increases order fulfillment accuracy.

850S Paper High-speed Bagging and Printing System

SUSTAINABILITY

- One Step printing directly on bags reduces consumable waste
- Paper is sustainably sourced from a FSC certified mill
- All-paper bags are curbside recyclable

MATERIALS

- Engineered to be used with AUTOBAG® brand all-paper bags

EQUIPMENT

- Inherently safe design
- Compact footprint minimizes floor space
- Minimal guarding provides unobstructed access to open bag
- Seal flatteners promote straight, level seals to optimize fillable bag volume
- Seamlessly integrates with warehouse management systems and existing packaging lines

APPLICATIONS

- Ideal for 3rd Party Logistics and fulfillment centers
- Suitable for an assortment of applications requiring product protection such as:
 - Apparel and Accessories
