Autofulfillment PROTECTIVE MAILER SYSTEM

Accutech Packaging, Inc. 508-543-3800 www.accutechpkg.com

The RapidPak high-speed protective mailer system is a self-contained, small-footprint packing station capable of processing 10-12 packages per minute.

The new RapidPak automated cushioned mailer system with a new, smaller profile design, utilizes Accutech technology that has proven itself for over 30 years, processing millions of orders per year for e-commerce operations shipping jewelry, cosmetics, health & beauty, vitamins and supplements.

## System Features & Benefits:

- Excellent product protection utilizing a full range of protective mailers such as TuffGard® and TuffGard® Extreme recycled poly bubble mailer. The system also runs the newly-introduced Sealed Air Paper Bubble Mailer, which is 100% curbside-recyclable.
- Shipping costs are reduced because of the lightweight mailers with a low profile.
- Automated label application with ID Technology 252 utilizing Zebra ZE511 print engine technology and direct thermal shipping label.
- Increased packer productivity and service throughput with this automated processing.
- Secure your product with durable heat seal closure.
- Symbol hand-held scanner for movement and flexibility.
- Allen Bradley PLC for flexible and reliable programming.
- Low maintenance with easy accessibility to all components.

**The RapidPak Sealed Air Paper Bubble Mailer has just been launched!**  
**This paper cushioned mailer is 100% curbside recyclable.**

TuffGard® and BubbleWrap® are registered trademarks of Sealed Air Corporation.
